AUDIENCE FEEDBACK:

Mr. Soeurng Sengtouch, a farmer in Siem Reap province-Northern of Phnom Penh: I have started listening to the program of Veritas Asia Khmer Service for about three years. When I listened to the program, I have acquired knowledge of life preparations, personal hygiene and social life. For the first time, I seemed to be a weak man. After listening to the program I can help make the program known and do little training for my community what I have received from RVA Khmer. In order for them to learn to understand, especially about culture and traditions. I do not want the program to be changed, but instead I want the RVA Khmer to initiate more topics, in particular training, social studies... In the end, I would like the RVA Khme to increase frequencies, so it can hear clearly.

Ms. Run Rasmey, a Craftwoman in Kompong Thom province-Central of Camboida: First, I like to listening to the homily, when priest expounded some passages have related to me. Father always said please do not forget to say your prayer to God. Another program regarding pastoral affairs and yet another program is public opinion, namely we can share our ideas. I don't have any request because I am satisfied with the program.

Mr. Sarin, Vallager in Thbong Khmum Province- Eastern of Phnom Penh : I listen to the program of the RVA Khmer, it broke the news and broadcast them. When I listened to it, I told all Christian in my Church to turned radio on. When I listened to the RVA Khmer, I have changed of heart and encouragement to teach my followers. I instructed them and proclaimed the Word of God in a manner in which I made preparations. It is not a big deal, in a week for few verses. I listened to the Word of God, Homily and the news about Catholic Church serving the poor and Cambodian society.

Miss. Meas Thavy, Pre-school teacher in Kompong Som province-South-West of Phnom Penh: I liked most listening when priests gave the homily of each spiritual life, prompting me to change a lot. Because I listened to the program, I helped communication the program to the others. That is, if they have any interest, they can listen to it because it has a lot of good ideas. Finally, I would like to ask youth to learn to understand and reflect on which points are important and so please you the youth consider the points they have chosen.

Mr. Khom Ban, Farmer in Thbong Khmum Province- Eastern of Phnom Penh: I seemed to have interest in the radio because I heard from my pastor. When he shared about the Word of God, it touched my heart very much. What he spoke seemed to have awaked my consciousness. I gained an experience and since my old way has changed, it seemed to be a light. In the end, I would like the Catholic Church runs RVA to extend more time in broadcasting the program. So that the others can listen to the Word of God. I noticed a point in what he spoke showed that he has a firmer faith.
